The Green Room
University Museum

As a part of the University Museum's ongoing Community and Collections Exhibit program, we invite artists to submit to our summer exhibition, "The Green Room." For this exhibition, we invite all visual artists to submit artworks that include the color green and its variations. But we also invite artists to consider other themes associated with the word 'green.' Artworks can address 'green' themes such as environmentalism, sustainability, money, or even reflect the show business term 'green room,' a room where entertainers go immediately before or after performing. We'd like to see how your work adds to the definitions of 'green.' In addition to the community art, the Museum staff will select items from the Museum's collection that also reflect the green theme for display alongside selected artworks.

Submission

For submissions, please send up to 3 examples of your work by Wednesday June 7, 2017 to be considered for the exhibit. Entries should be sent via email to Alison Erazmus at aerazmus@siu.edu.
